Quadient's iX-1 Series postage meter combines mail and parcel processing into one easy solution. With a full set of standard features and innovative apps, nothing delivers like the iX-1.

IMI printing technology

Perfect for your small business or home office, Quadient's iX-1 has Intelligent Mail Indicia (IMI) printing technology, meeting the latest USPS® requirements. IMI technology offers enhanced security and increased postage accuracy, as opposed to older IBI (Information-Based Indicia) that is being phased out by the USPS..

Take the guesswork out of postage

With a standard 10 lb. scale, the iX-1 can automatically weigh and calculate postage values guaranteeing you pay the correct amount for every item you send, every time. Never guess the price or overpay for postage again.

Avoid time-consuming trips to the post office

Process mail and parcels from the convenience of your office. Access over 50 USPS® rates and services including First-Class Mail®, Priority Mail® and Certified Mail™. With an iX-1, you will receive timely USPS® rate updates and be able to print postage 24/7.

Streamline shipping processes with S.M.A.R.T. Essential

Quadient's online shipping software enables multi-carrier shipping and so much more. Automatically compare rates across USPS®, FedEx® or UPS®* to find the lowest cost or fastest delivery time to get your parcels to their final destination. The single screen interface is easy to use, saves you time, and makes rate shopping a breeze. S.M.A.R.T. Essential meets the latest USPS® IM®pb (Intelligent Mail® package barcode) requirements. Also receive the following benefits:

- Qualify for deep postage savings with USPS Merchant Rates
- Get FREE address correction services
- Access FREE Insurance on Priority Mail®, Priority Mail Express™, and USPS Ground Advantage® (Up to \$100)
